## HOW CAN IT BE DONE FOR THE MONEY?

Most people know that there is a GREAT DIFFERENCE between what the manufacturer of clothing receives for his goods and the price the wearer is required to pay. How can we sell BETTER GOODS FOR LESS MONEY? By cutting out the needless expense and a large part of the profits that go between. Our way is the modern method of getting Good Clothes at a Reasonable Price. This is the way it is done: You call at our office and make your selection from more than four hundred samples of fabrics, getting exactly what suits you. Your measure is taken by an experienced tailor and sent to the factory, where every one of the large number of workmen employed is an expert in his department. The fabrics used are manufactured by the makers of the clothes, thus making a big saving over those who purchase their cloth from retail or even wholesale houses.

## THE BURLINGTON CHANGES HANDS

Wm. King Becomes Owner of Well Known Alliance Hotel—Will Be Managed by Guy Lockwood

The largest deal in Alliance in real estate for some time was closed this week through the agency of E. T. Kibbie & Company, when a deal was effected by which Wm. King becomes the owner of the Burlington Hotel, directly across from the Burlington depot, and the Lockwoods become the owners of the 320 acre farm four and one-half miles southeast of Alliance, known as the George Douglas farm.

The Burlington will be managed by Guy Lockwood, the well known hotel man, who has been serving in this capacity for several years. The Douglas farm is one of the best in Box Butte county, and is largely under cultivation.

### World's Largest Engine

San Francisco, March 18—A monster eighty-six foot locomotive built at the Baldwin Works, Philadelphia, for the Burlington railroad, has just been placed in the Transportation Palace at the Panama-Pacific Exposition, San Francisco. It is the largest road engine of the non-articulated type ever built, weight 280 tons,

and carries 17 tons of coal and 10,000 gallons of water. This engine is so big that it would be impossible for any human being to fire it, so it has been equipped with a Street automatic stoker, which carries the coal from the tender to the fire box. Its firebox is as large as a homestead shack and the inside of the small end of the boiler is seven feet four inches in diameter. It took thirty-seven days to get it across the continent.

The railroads have always held their end up at the American expositions, and judging from the exhibits which have already arrived at San Francisco they are going to maintain this record at the San Francisco show, which ought to help to restore the railroad to the position of romance and success which it has always held in the life of America.

### CAUGHT POSTOFFICE ROBBER

Government Authorities Capture Head of Gang Which Robbed Edgemont Postoffice

The Edgemont Express of March 12 had the following to say regarding the postoffice robber captured in Alliance:

Our readers will remember the burglary of the Edgemont postoffice last October and the slick young man who stayed here visiting with the officers and telling a story about his meeting with the burglars and so forth. This man disappeared after a few days and then came the reports that he was the chief of the gang. Orders were sent out by Attorney Stewart for his arrest and the following article from the Argus-Leader is self-explanatory:

"Blackie" Pat Attell, alias Pat Burns, the last of the gang of four men implicated in the robbery of the postoffice at Edgemont on October 5, 1914, has been caught in Nebraska, according to word received in Sioux Falls March 6, and federal officers have gone to Alliance, Nebraska, to bring him back to this state. Attell has already served four terms, one in Kansas, two in California and one in Wyoming, for various offenses. Two of "Blackie's" pals, Joe Miller and Elmer Greenburg, are now in jail at Deadwood, while John B. King, another man said by the authorities to be a member of the same gang, is in jail at Sioux Falls, to await trial. Miller has a record of having served one term for a postoffice robbery at Stockholm on December 18, 1910.

V. C. Batie, postoffice inspector in

this district, has been working on the case since the crime was committed last October, and with the final capture of Attell has cleared up a case that is of considerable interest in the western part of the state. Inspector Baite believes that he has evidence that will lead to the conviction of all four of the men implicated. They will be tried at Deadwood at the next term of the federal court.

## GUN CLUB WAS ORGANIZED

One Hundred and Twenty-five Members Expected to Join Gun Club Organized Tuesday Evening

The Alliance Gun Club was organized Tuesday evening, at the meeting held at the Newberry building. Rev. Young acted as chairman of the meeting and E. G. Laing was chosen to act as secretary. At the election of officers Richard Waters was chosen president, R. Stansberry, vice president; E. G. Laing, secretary and treasurer; and J. L. Nicolai field captain. A membership committee was chosen consisting of Stansberry, Nicolai and Copeland. The committee on by-laws was Young, Gilman and Calder.

The date of the yearly state convention is May 18 to 20 at North Platte. Alliance is going after the 1916 convention. A special meeting is to be held next Tuesday evening. Those present Tuesday evening were treated to a fine box of cigars by Mr. Stansberry.

The Newberry Hardware Company of Alliance offers the following prizes to gun clubs in towns between Guernsey, Wyoming, on the Burlington, and Anselmo, Nebraska, including Sidney on the south and Crawford on the north, who wish to compete for the same under the following conditions:

Ten members of any organized gun club will be eligible to participate, shooting at twenty-five targets per man, scores made by the five high men to count at each shoot on the prizes. Clubs will select a shooting day and must shoot on the last shooting day of each month, unless weather conditions will not permit, in which case the following week will answer.

The contest will start the last week in April and close the last week in August. Interstate Association rules will prevail in all contests; all shooters participating must use Peters Shells in all contests. Targets must be thrown fifty yards at unknown angles and shooters must stand sixteen yards back of the trap-house, shooting from five stakes, arranged in a semi-circle nine feet apart. Each man will be required to shoot five targets from each stake and move forward to the next, and so on, until he completes his score of twenty-five targets.

The final contest between the three teams making a high aggregate score will be held at Alliance, Nebraska, the date to be arranged by the contesting teams, and the team making the highest score, each man shooting the twenty-five targets, will be declared winner of the first prize.

The shooter participating in all contests, not necessarily the final shoot-off, will receive a case of Peters shells for high individual aggregate score.

A Marlin trap gun will be presented to the five men winning the final shoot-off.

All ties must be shot off. Each club participating in this contest will be furnished with a score card and Interstate Association rules. After each contest, a copy of all club scores must be forwarded to Newberry's Hardware Company when a notice advising each club of their respective standing will be sent out to each club.

The ten scores of the men shooting on each match shall be sent in and the five highest scores taken from same.
